TEUSDAY, DECEMBER 9, 1880.

Stanley will deliver his African lecture at the Auditorium in Louisville on Thursday night, Dec. 18.

Surgeon General J. D. Baxter, of the regular army, died from a stroke of paralysis last Thursday, at Washington.

Three consumptives who are being treated with Dr. Koch's curative lymph at New Haven, are said to be improving rapidly.

Alabama and South Carolina are the first States to inaugurate their new Governors. The other States will follow suit in January.

All of the papers now are filled with accounts of weddings. There was never the like of marriages before. Is this another sign of a hard winter?

Minister Mizner, of Gantemals, has been recalled by the President for the part he took in the murder of Gen. Burdina on board a United States vessel.

The National Alliance at Ocala has committed itself to the third party idea and a sectional conference has been called to meet at Cincinnati, Feb. 23.

Congressman Biggs offered to bet \$2,000 to \$100 in open House Friday that there would be a deficiency under Republican rule this year. He found no takers.

The first banquet of the Alumni of the Louisville High School, at the Louisville Hotel Saturday, was attended by 475 of the 1,200 girl graduates within the last 32 years.

Louisville, Frankfort and Bowling Green have emerged from hot city campaign's with Democratic colors flying. Hopkinsville is next on the list and will do her whole duty next Saturday.

Senator Turpie's mother, an old lady past ninety, buried to death in her home in Indiana the other day, on the same day that her son was making a great speech in the Senate in opposition to the Force Bill.

Will Smith, of Mayfield, is a candidate for Circuit Judge in the Paducah district and is the only candidate announced so far. He will probably have no formidable opposition, as Judge Campbell, of Paducah, has declined to stand for re-election.

The National Alliance has by a practically unanimous vote condemned the Force Bill and called upon the Senators of 28 states, including Kansas and Illinois, to vote against it. To at least two Republican Senators—Ingalls and Furwell—the call comes as a thunder-toned ultimatum.

The New Hampshire Legislature met and adjourned without attempting to pass any law binding the next Legislature in its organization. With a fair start and no equal showing, the Democrats, who have a majority to start with, ought to be able to take care of themselves.

The *Globe-Democrat* gives pictures and sketches of five sisters, all widows whose ages range from 90 to 80 years. They are Robecca Lowe, Vinton, Ia.; Dorothy Peter, Shively, Ky.; Sarah Robinson, Campbellsburg, Ky.; Martha Brown, North Sniem, Ind., and Jane Cleveland, Shively, Ky.

The Con. Con. is now working on the report of the Committee on Elections. The qualifications of a voter have been fixed at one year in the State, six months in the county and sixty days in the district with an intention to reside. This is much plainer and more satisfactory than under the present constitution.

Gen. John B. Castleman is making the best Chairman of the Democratic State Central Committee the party has ever had. He is a worker and an organizer and his watchful attention to details has strengthened the party all over the State and brought about a most efficient organization in many former Republican strongholds. He is the very man for the place.

The Republicans have agreed upon a Reapportionment Bill, fixing the membership of the next House at 356, South Carolina and Virginia will be the only States to lose a member. As many Democrats are opposed to my bill that would reduce the representation of their respective States, is keeping the number at 332 would do, there is a probability that the Republicans can get their bill through.

The Bittenhouse Manufacturing Co., a big Blawatt house at Passaic, N. J., has failed for a million dollars and 800 hands are thrown out of employment. Edward H. Ammidown, President of the American Protective Tariff League, owns nine-tenths of the stock. When it's prominent protectionist decided to question "Am I down?" or am I up, he will probably try to explain how a failure could occur in the most highly protected line of goods and one that was given the benefit of increased duties by the McKinley Bill.

THE CRAFT.

The Morganfield Sun reminds Hon. Henry Watterson that he promised to visit Morganfield and make a speech if Union county would give Ellis 1,500 majority, and call upon him to redeem his promise.

Take The Hustler, pay for it and by that means you will be exempt from jury service, especially if it be a murder case. No man who reads his county paper and keeps posted is ever permitted to serve on cases of this kind. As a general thing the more ignorant a man is the better jurymen he makes in criminal cases. —Madisonville *Hustler*.

This induction may influence a few men to take the *Hustler*, but our contemporary forgets that nine out of ten men have a consuming ambition to sit on juries.

The Sturgis *Enterprise* appeared in a two-page advertising edition last week, which speaks volumes for the enterprise of the business men of the little town where it is published.

The KENTUCKIAN acknowledges the receipt of an invitation to attend the opening of the new Pulitzer building, erected for the New York World, which will be formally occupied on Dec. 10. The news also comes that this greatest of New York papers has just changed hands, the price paid Mr. Bradlee being given as \$3,500,000.

The Messenger has been elected City Printer of Owensboro for 1891.

The *Midnight Sun* is the name of a new daily paper that appeared at Owensboro Sunday morning, with W. S. Sterette editor and L. J. Early local editor and business manager.

The laws of health are taught in the schools; but not in a way to be of much practical benefit and are never learned by living examples, which in many cases might easily be done. If some scholar, who had just contracted a cold, were brought before the school, so that all could hear the dry long cough and know its significance, see the thin white coating on the tongue and, later, as the cold developed, see the prostration, discharge, excretion and the water discharge from the nose, not one of them would ever forget what the first symptoms of a cold were. The scholar should then be given Chamberlain's Cough Remedy freely, that all might see that even a severe cold could be cured in one or two days, or greatly mitigated, when properly treated as soon as the first symptoms appear. The demonstration and company being far superior to last season, the demonstration, is sure of a big week's business. —*Commercial-Gazette*.

A son of Mr. M. D. Pusser a merchant of Gibraltar, N. C., was so loudly afflicted with rheumatism for a year or more as to be unable to work or go to school. His father concluded to try Chamberlain's Pain Balm on the boy. It soon cured him and he has since walked one and a half miles to school and back every school day, 50 cent bottle for sale by Buekner Leavel.

Frankfort joined the list of Democratic cities Saturday, electing the entire city ticket, for the first time in four years.

Christmas presents at Cooke's

A greater variety of things suitable for Christmas presents can be found at Cooke's, Clarksville, than ever before. Gold thimbles, lockets and chains, buttons, match boxes and dressing cases, gold spectacles and eye glasses, opera glasses and canes, a fine silk of umbrella, watches for ladies and gentlemen, (and the boys and girls are not forgotten), cheaper and better than ever before in great variety. Anybody can afford one now.

Braelets and buttons of all kinds, diamond rings, pins and our rings, clocks and figures, as well as an elegant line of spoons of all kinds, knives and forks cheap and fine, earing sets, gold pens, pencils, picks and charms, as well as a great variety of fancy articles that have to be seen to be appreciated.

So if you want something for your best girl, and of course you do for father, mother, sister, brother, cousin or sweetheart, be sure and go to Cooke's for it, as he has the latest styles and his prices are as low as the lowest and goods of the best.

Should your eyes trouble you, Mr. Cooke has an optometrist with whom he examines the eye and carefully adjusts lenses of the proper strength to suit.

His prices are greatly lower than prices asked by peddlers and his goods are thoroughly reliable. Try him.

NEWSTEAD.

NEWSTEAD, KY., Dec. 5 1890.—Thos. Ledford, col., lost a barn and twelve thousand pounds of tobacco last night by fire.

George Taylor, of Hopkinsville, was among the visitors in town to-day.

Phil Wills left last week for Texas, where he expects to locate.

Mr. Wm. Smith shipped a car load of excellent swine from here to-day, he is the most "hogish" gentleman in this end of the country.

Miss Sallie Creusheen is visiting relatives at Paris, Tenn.

Miss Amy Haydon, a charming girl of Cobb's Station, but who is teaching at Mr. J. A. Ledford's, passed through town yesterday en route home on a visit to her parents.

A rich Eastern Syndicate will erect a fine hotel on Mason's Avenue before "ninety-one." That and the coming improvements will cause our town to excel any other on the C. & P. division of the L. & N. R. R.

GERONIMO.

The December Century is more "Christmas" than is usual for that magazine, there being a Christmas story by Joel Chandler Harris, and a Christmas poem by President Henry Morton, of Stevens Institute, while the "Christmas Reflections" says that perhaps the readers may find as much of the true Christmas feeling in Dr. Abbott's article "Can a Nation Have a Religion?" and in the article on the "Record of Virtue" as in the more ostentatious Christmas "features" of this number of the Century. The frontispiece is a striking head, "Daphne," by George W. Maynard in "The Century Series of American Pictures," and the opening paper is General Bidwell's account of "Life in California Before the Gold Discovery." Here is also published "Race and Mission days in Alta California," these two articles showing with what thoroughness The Century's new and important series is being carried out.

Why to Select the Best.

Physicians claim that pure Sour Mash Whisky taken in moderation is beneficial to one's health. Kentucky is noted for its pure Sour Mash Whiskies and while there are quite a number of good brands on the market, the old Silas Jones Whisky, of which LaS Simon & Co., of Louisville, Ky., are the Sole Proprietors, is especially recommended for its medicinal qualities.

The Fakir December, 18.

Harry L. Hamlin's clever company of players packed Havlin's Theatre yesterday afternoon, and the audience in the evening, it is claimed, was the largest ever known in that popular house, and showed its appreciation and good will by generous applause, laughter and other noisy but good natured demonstrations. By actual count there were 5,373 paying persons in the theatre at the two performances, and it can safely be said that 5,373 enjoyed themselves highly and voted "The Fakir" a howling success. The company presenting the skit this season is entirely new, but it is composed of competent and well-known artists; each and every one scored a hit. The girls have superb faces and figures. The performance and company being far superior to last season, "The Fakir," judging from last night's demonstration, is sure of a big week's business. —*Commercial-Gazette*.

Gratifying to All.

The high position attained and the universal acceptance and approval of the pleasant liquid fruit remedy Syrup of Figs, as the most excellent laxative known, illustrate the value of the qualities on which its success is based and are abundantly gratifying to the California Fig Syrup Company.

TOBACCO NEWS.

LOUISVILLE TOBACCO MARKET.

Founded by Glover & Durrett.

The sales on our market for the week just closed amount to 1,875 Hhds, with receipts for the same period of 772 Hhds. sales on our market since January 1st, amount to 139,219. Hhds.

Up to this time 127 hogheads of the crop of this year have been sold on our market. Several hogheads of the bitter galss of dark leaf have sold at prices ranging from \$5.00 to \$7.00. Our market has shown rather more activity for all grades of old dark tobacco. The following quotations fairly represent our market for dark tobacco crop of 1889:

Trash 50c to \$1.00.
Common to Medium Lugs \$1.50 to 2.00.
Dark Rich Lugs extra quality \$2.00 to 4.00.
Common Leaf \$3.50 to 5.00.
Medium to Good Leaf \$5.00 to 6.50.
Good Leaf extra length \$3.50 to 5.00.
Wrapping Styles \$8.00 to 12.00

MATRIMONIAL.

Mrs. Sardie Wilson, of Trigg County, and Mr. C. W. Jackson, of Lyon County, were married Wednesday by Rev. R. W. Morehead, at the residence of Mr. W. C. Wilson. They are both well known throughout this section and their host of friends wish them much happiness in their new state.—*Princeton Banner*.

W. P. Wadlin and Miss Lulu Baker, an eloping couple at Newport, Ky., were married by a magistrate in a hark going at break neck speed with the angry father in hot pursuit. When the knot was tied the old man cooled down and made the best of it.

Mr. and Mrs. Ann Barr, of Kansas City, have discovered through the work of a detective who was searching for the heirs of a wealthy relative deceased in Canada, that they are brother and sister. They were separated and abandoned by German immigrants at Castle Gordon 25 years ago. The boy was adopted by a man named Barr and the girl by a Mrs. Evans, of Philadelphia. The boy 20 years later moved to Philadelphia, having learned the trade of painter. Here he met the girl, they loved, were married and moved to Kansas City. They have no children. Steps have been taken to secure a divorce by the grief-stricken pair. They will inherit a large property in equal shares.

This includes but two of the presidents—Messrs. Campbell and Anderson. Messrs. Loag, Gilliland, McDaniel and Prowe are left off. The ticket is about the best the Republican party could put out, though to make it they have not confined themselves to their own party ranks. One of the nominees is a prohibitionist, one a Democrat, and another a Republican who has been in the habit of voting the Democratic ticket of late years. Several of the gentlemen have declared that they would under no circumstances be candidates, but since they have been nominated the presumption is that they will run.

The Republicans, even with a ticket that is expected to secure some Democrats from party fealty in certain wards do not hope to elect their men in more than four wards. They have selected the odd wards, the First, Third, Fifth and Seventh, as their fighting ground and hope by the aid of Democratic votes to defeat Meeks, Dennis, Petree, Tibbs and Withers.

A GOOD THING!

Mrs. Rives was a member of the Baptist church and a pious, Christian woman. The remains were interred in the old Garrett burying ground Wednesday. Three children survive her.

It is a Mistake

To try to cure catarrh by using local applications. Catarrh is not a local but a constitutional disease. It is not a disease of the man's nose but of the man. Therefore, to effect a cure, requires a constitutional remedy like Hoods Sarsaparilla, which acting through the blood reaches every part of the system expelling the taint which causes the disease, and imparting health.

To Trial at Last.

The Cowan-Prowe contest came

on yesterday for trial and is now

being heard by the contesting board.

The case will be tedious and tiresome

and long-drawn out. It will take all

A Postal Clerk Explains.

T. F. Bangham, Railway Postal

clerk, has written from Princeton to

explain why the mails are so irregular

from this place to points on the C. &

P. Division. He says the N. N. & M.

V. trains arrive at Princeton at 6:40

a. m. and the C. & P. train leaves

Princeton at 6:30 a. m. Frequently

the N. N. & M. V. train is late, which

delays the mails for 24 hours. This

explanation is reasonable, but is not

satisfactory. If the railroads cannot

make their connections properly the

old star route system should be re-

sumed. It is presumed they are paid

to carry the mails and they should be

paid to change their time tables if

necessary to insure prompt delivery.

MAKING SQUARE HOLES.

One of the Most Important Mechanical Inventions of the Century.

A feat in mechanics has just been accomplished by the production of a machine by means of which square holes can be drilled in metal. Hitherto it has only been possible to drill round holes, but now square holes can in fact, holes of complex geometrical outlines, can be drilled as easily as circular holes. There are two machines for effecting this object, one of which will only drill either round or square holes, but the other will drill holes of any shape.

The first of these is the Ailey-Oakes drilling machine, which in appearance resembles an ordinary drilling machine. It has, however, a spindle of three concentric parts, upon one of which is a set of cams so arranged that each cam, when brought into combination with the part in which it works, produces at the center a hole of a given size, each cam producing a different sized hole. In other words, in cutting a square hole the tool is cut into a square a square, a square, and so on, with drawings to make the arrangement clear, but it may be stated generally that the mechanical details, while very ingenious, are very simple, and the results very satisfactory.

The second machine is the Tyler-Ellis drill, which is an outcome of the previous apparatus. In the Tyler-Ellis machine the spindle moves about the center of a ball joint, and by an improved arrangement of the working parts holes of any conceivable mathematical outline can be drilled. Another point of advantage in the Tyler-Ellis drill is that it cuts clean angles in the square hole, whereas the Ailey-Oakes drill cuts the corners of the square a square, a square, and so on, with drawings to make the arrangement clear, but it may be stated generally that the mechanical details, while very ingenious, are very simple, and the results very satisfactory.

The value of these machines will be found in engineering workshops and shipbuilding yards, where great numbers of square holes are constantly required to be made in various parts of machinery, and would be much more frequently made were the means at hand for forming them. It is stated that the cost of drilling square holes is no greater than that of round ones, although up to the present time the cost has been as to 30—that is to say, a square hole has hitherto cost to make thirty-six times as much as a round one.—London Times.

I have Plucked More Than One.

The Irlin law courts a person who was caught red-handed has been proceeded against for stealing roses from a prettily decorated grave. The accused produced in court a copy of the inscription on the tablet over the grave, which runs as follows: "Traveler, pause a moment and pluck a rose in remembrance of me, I was a fool." The defendant, on the strength of this, contended that he was selling simple in accordance with the expressed wish of the deceased; but the judge thought otherwise. The inscription on the tablet stated plainly that the traitor was to pluck a rose. There was no mention in the legend that he should pluck a handful of roses from the bower. So the learned judge forthwith pronounced the defendant guilty.—London Daily News.

Some fishermen off the coast of Florida lately saw an octopus or devil-fish with thirteen arms, and each arm at least fifteen feet long. Its body was as large as a barrel, and a chap like that would give a small schooner and her crew a lively time to get clear of him.

SOME FAMOUS BULLS.
A Collection of Laughable Remarks
Made by Sir Boyle Royle.

The story is well known of Sir Boyle Royle, sitting in the Irish Parliament. "Why do we always get ourselves into so many to do any thing for posterity, for what has posterity done for us?" was the sequel, not equally well known. Supposing, from the roar of laughter which greeted this question, that the House had misunderstood him, he explained "that by posterity he did not at all mean our ancestors, but those who were to come immediately after them." Upon hearing this explanation "it was impossible," Harrington assures us, "to do any serious business for half an hour." Sir Boyle was an ardent importor of the union, and exalted one day a general title by his florid picture of the happiness which was to ensue from that oration.

"Gentlemen," retorted Sir Boyle, "have I not a brother and father and mother, and many think it a bad measure, but their heads at present are not so much as remain till their grow cold."

And so they can't decide right now, but when the day of judgment comes, then honorable gentlemen will be satisfied at this most excellent union. Sir, there is no Lovelish degree between nations, and on this occasion I can see no sin nor shame in marrying our own sister."

Arguing on another occasion in favor of suspending the habeas corpus act in Ireland, "it would be better, Mr. Speaker," said he, "to give up not only a part, but necessary, even the whole of our constitution, to prevent the restoration of that which is not good."

—What is the use of aspirations if they are not strong enough to incorporate themselves into character and project themselves in righteous living? That kind of piety which knows and approves the better course, but consistently and steadily follows the worse, will not stand the test of the Master's judgment.—Nashville Christian Advocate.

Episcopal institutions come into possession of large legacies from the estate of the late Mr. Francon Brownell of Hartford, Conn., which is valued at about \$60,000. Trinity College, of that city, received \$30,000; the cathedral church of St. John the Divine, in Washington, \$10,000, and the Missionary Society of the Episcopal Church is to receive \$10,000.

The proposed school for missionaries at Hartford Seminary, under the direction of Prof. Waldo S. Pratt, is arousing much interest even so far away as England. The course is to occupy three years, and the students are to be in residence thirty weeks in each year. Both men and women will be admitted, and they will be trained as directors of music in churches and Sunday-schools.

A wealthy Greek, Demetrios Tsamis-Philippi, has given two million francs for the erection of a Greek church in Paris. Philippi the one thousand and four hundred living in the French Capital were compelled to worship in the Russian church. The Roumanians have an orthodox church in Paris. The Catholics of the Oriental rite two years ago received permission to worship in the Church St. Julian-le-Pauvre, formerly the old Hotel Dinn. The Catholic Armenians and Maronites have for a number of years been the possessors of a church and seminary of their own in Paris, which city now has three Greek Orthodox and two Catholic Greek Churches.

—The making of square holes has been given of the origin and genus of "hulls," but we believe they very often come from extreme quickness of apprehension, the mind leaping to the conclusion without passing through the interior of the process, like the judge who, in passing sentence on a burglar, said: "You ought to be ashamed of yourself, sir, you have already followed, instead of which you go to bed, like a fool in people's houses."

—Well, young ladies," he said, "if I was the committee on awarding the possession of the blue ribbon to both of you, I'd award it to both of you." "We are not competing for prizes," answered the blushing maiden on his left. "We're the committee on awarding the ribbon to the prize girl, and I think you are the girl."

"You disagree?"

"Yes, I seem to be on one side and she on the other."—Chicago Tribune.
